

## Eska® Duo White

- Eska® Duo White is a white lined uncoated solid board with a grey core
- The board lays flat and stays flat and has excellent converting properties
- Suitable for luxury packaging, rigid boxes, white inserts and mounting
- The internal layer and lining paper are made of 100% recycled fibres
- The bleaching method used for the lining paper is fully free from chlorine (TCF)
- This makes Eska® duo white one of the most environmentally friendly choices in its product category
