

MetsaBoard Classic

- MetsäBoard Classic FBB is a fully coated folding boxboard (GC2) available in a basis weight range of 200-340 g/m² and suitable for offset, flexo and digital printing
- Ideal for branded fast-moving products such as food and healthcare
- Approved for direct food contact, it has improved moisture resistance and all pulp layers are hard-sized
- Trouble-free printing, converting and packing
- Lightweight construction allows a lower basis weight to be specified without loss of strength and performance
- Made from fresh fibres, traceably sourced from sustainably managed northern forests
- Manufactured under the highest environmental and safety standards
