ESKA DUO Product Sheet

Eskaduo white is a white lined uncoated solid board with a grey core. The board lays flat and stays flat and has excellent converting properties. It is extremely suitable for luxury packaging, rigid boxes, white inserts and mounting.

Environmentally friendly

The internal layer and lining paper are made of 100% recycled fibres. The bleaching method used for the lining paper is fully free from chlorine (TCF). This makes Eskaduo white one of the most environmentally friendly choices in its product category.
